

## *Save A Flush Digester* *Product Information Sheet*

**Save A Flush Digester** is a bacteria based very powerful blue urine masking dye system which instantly colours water blue and disguises all typical urine colours while remaining safe for the porcelain surfaces inside the toilet bowl.

**Save A Flush Digester** is a leader in its class when it comes to hygiene. The intelligent bacteria contained in this product, eats and digests the soils and out performs the pathogenic bacteria, that causes the odours and dirt build up, for food source, starves the pathogens from food and kills the pathogens through starvation. There is no immunity to starvation and therefore doesn't allow the

pathogens to build up immunity and develop into a stronger "super bug" strain of new Pathogen. The bi-product is H<sub>2</sub>O & CO<sub>2</sub>.

**Save A Flush** contains class leading 5 enzyme system which quickly and effectively digests all toilet system waste and much more:

- ✓ **Protease** – breaks down protein-based waste like blood and fecal matter
- ✓ **Lipase** – breaks down fats, greases, and oil
- ✓ **Amylase** – breaks down starches like porridge, rice, pasta, etc.
- ✓ **Cellulase** – breaks down cellulose e.g. from paper-based products
- ✓ **Urease** – breaks down urea

This product has been designed to clean immediately, it will remain cleaning and digesting as long as there is food source for the bacteria.

**Uses:** Spray 10 sprays into the toilet bowl after every urination to contain odours and biodegrade all the soils from urine.

**Save A Flush Digester** is also safe to use with septic tanks.

Sanitizing and air freshener are not required to be used in conjunction with **Save A Flush Digester**.

**Quality Product Guarantee** – Water based biological toilet cleaner.

**Storage:** Store in cool ventilated area

**Application & Concentration:** Spray 10 sprays into the toilet bowl after every urination undiluted.

**Contact Time:** ongoing

**PH levels** – Undiluted (PH 5.5 – 8.5)

**Toxicity: Toxicological information / health effects**

**Inhalation** – None.

**Skin Contact** - None.

**Eye Contact** – Will cause irritation, seek medical assistance.

**Ingestion** – Potential discomfort and abdominal pain including nausea, vomiting and diarrhoea.

**Biodegradability** - Biodegradable ingredients.

**Eco Toxicity** - Non-toxic.

**Specific Effects** - None experienced or reported. Irritant to eye.

**Safety Precautions** – Wear appropriate safety gear i.e. Safety glasses & gloves.

**Pack Sizes**

**Pack Sizes** – 750ml Spray Bottle, 5ltr, 25tr, 210ltr, 1000ltr
